

What's going on in the Sky ?

Julius Hřivnáč

17 Oct 2025

S setkání českých vědkyň a vědců ve Francii

- New observatory in Chile
- Wide international Collaboration
 - Managed by NSF/DOE (USA)
 - France & Česko members
- Starting now, first (preliminary) data available

- Periodic (every 3 days) deep space observations (in 6 colors)
- Searching for new/moving/changing objects (Supernovas, Asteroids, Aliens,...)

- **Alerts** about new/moving/changing objects spread via network of **brokers**
 - Connected to other observatories
- We are managing **Fink broker**
 - Hosted in Lyon
